

Amprobe Battery Tester

Availability: In Stock

Price: \$200TTD

Short Description

Test standard and rechargeable batteries: 9V, AA, AAA, C, D, 1.5V

Description

- Battery failure is one of the most common causes for sensor or instrument failure. The BAT-200 Battery Tester indicates the amount of charge remaining in standard and rechargeable batteries. The analog display needle moves on a color-coded, calibrated scale to quickly identify 'good' (green), 'low' (yellow), and 'replace/recharge' (red) battery status. The BAT-200 tests 9V, AA, AAA, C, D and 1.5V Button Type batteries. Tester does not require any internal batteries to operate.
- Easy-to-read color-coded display with "Good", "Low" and "Replace/Recharge" indicators
- Test standard and rechargeable batteries: 9V, AA, AAA, C, D, 1.5V Button Type
- Compact design
- No batteries required to operate
